

Versapay Connector Bundle Update Process

Quick Reference Guide

As a Versapay customer, you can easily update the Versapay Connector bundle.

How to Update

1. Access the latest bundle update directly from the Installed Bundles page in your NetSuite account.

	AR Automation & Collaboration	413798	1.0.13	No	Transform your AR department to drive efficiency and cash flow with Versapay's AR automation and collaboration platform designed and built for NetSuite. Versapay connects your AR department to your customers over the cloud, giving customers real-time shared access to their account information, while automating routine AR tasks to reduce manual processes and speed up payments.		Solupay Deployment (Trailing) (TSTD RV1310406) (TSTD RV1310406)	Production
---	-------------------------------	--------	--------	----	--	---	---	------------

2. For detailed instructions on updating bundles, please refer to [NetSuite's Choosing a Bundle to Update](#) help article.
